***ELECTION/RESTRICTION***

1. The Response of April 11, 2003 has been entered. Upon further consideration, Applicants are required to elect, in addition to the single gene (for sterol responsive element binding protein ADD1/SREBP) elected in the Response, a combination of 4 genes that includes the elected gene. Applicant is also asked to provide a supplemental listing of all claims readable on the elected combination and/or a complete listing of all claims readable on both the elected gene and the elected combination, including any claims subsequently added. While it is reiterated that each individual molecule and each combination of molecules is distinct from each other individual molecule and each other combination, as discussed in the Election/Restriction of December 17, 2002, it is noted that the claims will be examined to the extent that they are drawn both to the single elected gene and to the elected combination. It is further noted that, following receipt of Applicants' further election, a response to Applicants' traversal of the restriction requirement will be provided in the first Office action on the merits.
